----Mayor’s Comments--------

---- Appreciates Ms. Miller and everyone else attending the meeting, important to get input from the public. Believes the City is at the line with Flock and what we have now, cameras have been placed where if someone comes into this community or goes out of the community after committing a crime, then there is a way to go back after the fact and look. Every officer cannot access Flock, must be a supervisor or detective. Very careful, and policies are online. There are other things that need to be done, Councilman Meeks is on the State Legislative Committee with the Alabama League of Municipalities, and they are working hard on this to get the same protection for license plate readers as have for NCIC. Will work hard on this and to define the line between protecting privacy and protecting safety. Take this very seriously. Willing to meet, discuss and talk with anyone regarding.

---- Attended a groundbreaking at Lockheed Martin to start the process of building the first hypersonic missile. An amazing thing.

----Announced next week the additional Academy Street renovations will be bid, a project of fifteen million dollars or more.
