

Pike Area Transit PARCEL POLICY

All passengers are encouraged to limit the size and number of personal items brought aboard the bus

Under the seat: Passengers may store those parcels that fit entirely underneath the passenger's own seat without protruding into the aisle or interfering with the seating or legroom of other passengers.

To ensure seating is available for all fare-paying riders, any personal item or parcel that occupies a separate seat or any part of a separate seat is considered to be occupying a paid space.

If a parcel is placed on an unoccupied seat next to the passenger, the passenger will be charged an additional fare equal to the standard adult passenger fare for that additional seat.
